Re: EPA Notice of Intent to Issue Special Notice Letters
Yosemite Slough Superfund Site, San Francisco, CA

Dear Ms. Tennis:

Delta Air Lines, Inc. ("Delta") is in receipt of EPA's May 15, 2014 Notice of Intent to Issue Special Notice Letters for the above-referenced site. As Delta informed EPA in response to its 2008 General Notice Letter, however, any alleged claims in connection with the site were discharged by Delta's bankruptcy. A copy of Delta's March 11, 2008 response to EPA's 2008 General Notice Letter is enclosed.

Specifically, Delta filed for bankruptcy protection in September 2005, and was approved for reorganization and discharged from bankruptcy by the United States Bankruptcy Court for the Southern District of New York in April 2007. EPA was noticed as a creditor in Delta's bankruptcy case. Based on the information we have received with respect to the site, the facts and events relating to Delta's alleged contribution to the site and EPA's discovery of the site all predate Delta's filing and discharge from bankruptcy.

Accordingly, Delta must decline to participate in the proposed negotiations, and requests that it be removed from EPA's list of potentially responsible parties for the site. Delta has also informed the site's PRP group, copied in this letter, of its discharge from claims with respect to the site. Please also note that any future correspondence regarding the site should be directed to me at the above address.

Sincerely,

A handwritten signature in blue ink that reads 'Christine H. Boucher'.

Christine H. Boucher

Re: Delta Air Lines, Inc.
General Notice of Potential Liability
Yosemite Creek Superfund Site
San Francisco, CA

Dear Mr. Reiner:

Delta Air Lines, Inc. ("Delta") is in receipt of the above referenced General Notice of Potential Liability dated February 21, 2008, (the "Notice") from the U.S. Environmental Protection Agency, Region IX. On September 14, 2005, Delta and its subsidiaries filed voluntary petitions for relief in the United States Bankruptcy Court for the Southern District of New York. The U.S. Environmental Protection Agency was noticed as a creditor in the bankruptcy case. The issues raised in the Notice relate to facts and events occurring prior to Delta's bankruptcy filing. Therefore, any potential liability associated with the Yosemite Creek Superfund Site and allegedly attributable to Delta is a prepetition obligation which has been discharged.

Please note that any future correspondence regarding this site should be directed to me at the above address.

Very truly yours,

Alison J. Lathrop
